

Features

Avesta Applicator 415:

- is a manual 5 L hand pump aimed for users of FinishOne™ 630 or Avesta Cleaners.
- is a mobile unit which is easy to use for the spraying of smaller application.
- is specially adapted for the spraying of FinishOne™ and cleaners.
- can be adapted for spraying of pickling acids (use handle: HA93600-0021X (not included)).

Handling instructions

- Fill the chemicals into the pump
- Pump up a pressure
- Apply the product
- Rinse the pump with water after spraying

Spare parts

- HA41500-7023K- Gaskets and membran
- HA93600-0021X -Handle for pickling acids

Safety

Avesta first-aid spray 910 should always be readily available when pickling is being carried out. The contents of this 200 ml spray have been optimised to take care of small splashes of pickling pastes and gels.

Safety precautions

See Avesta Welding's data sheets on material safety.
