

EXOR

MINIMUM COST
MAXIMUM PROTECTION

A low cost safety solution

At Infield we believe that uncomfortable safety eyewear will not fulfil its purpose or justify its cost. Safety eyewear must provide maximum protection and be comfortable and attractive to wear. We also know that eye protection has to be affordable. With these concepts in mind we have created the Exor - a low cost spectacle packed with features that will ensure a secure and comfortable fit for any user.

EXOR

Free Sports Headband

Each frame is supplied with a free sports headband to ensure the frame always stays in place.

Features

Adjustable Temple Length & Lens Inclination

Allows adjustment to give a secure but pressure-free fit for any wearer.

Optical Class 1

Designed to exceed the requirements for EN166 optical Class 1, the Exor has excellent optical properties and freedom from distortion to eliminate eye fatigue during constant use.

Adjustable Nose Bridge

Soft adjustable nose bridge provides a secure, non-slip fit.
