

	technical data sheet
 	PromaxCC A36U BF

application	cutting wheel for free hand cutting mounted on angle grinders
materials	metals, steel general purpose, tool steel
technical characteristics	coarse grit structure, very good stock removal, in combination with strong machines the best life, very fast cutting
working speed	80 m/s
application requirements according to EN 12413 and BGV D12	for cutting only, use of safety guards mandatory, user has to observe the safety instructions
All cutting and grinding wheels are tested to the requirements of EN 12413	

ingredients	special corundum with 96% Alumina, 3% Titanoxid, phenolic resin bonded system with fillers, Reinforcement by fibre glas
-------------	---

available sizes[mm]	type	Max. RPM [1/min]
100 x 2 x 16	41 / 42	15.280
115 x 2 x 22,23	41 / 42	13.290
125 x 2 x 22,23	41 / 42	12.220
150 x 2 x 22,23	41 / 42	10.190
180 x 2 x 22,23	41 / 42	8.600
230 x 2 x 22,23	41 / 42	6.640
